"Landscape Photography & Timelapse"

Private Photo Guiding & Timelapse Mentoring

Would you love to photograph Yosemite in the most epic locations with someone who's spent more than half their life exploring its natural wonders? Are you interested in being shown the best places to shoot at the best times by a seasoned local? Are you passionate about timelapse and want to take your skills to the next level and get great shots with "in the field" instruction? Are you interested in seeing off the beaten path locations, or want to explore new places? We can work together to come up with a personalized experience tailored to meet your desires & needs. I specialize in Yosemite & The Sierra, but we can go anywhere in the world, so dream big!

Yosemite & Sierra Photo Guiding

With Photo Guiding in Yosemite & The Sierra I offer you a personalized opportunity to shoot at some of the most incredible locations in Yosemite, Tuolumne and the Eastern & High Sierra. Over the last 20 years I've been living in and exploring the majestic Sierra Nevada, and with private Photo Guiding you get to tap into my experience of seeking out the most beautiful locations I can find. We'll seek the light around dawn or dusk and can also focus on astro photography as well. Depending on your level of fitness we can be close to the road or many miles deep into the backcountry.

All Guiding bookings include:

- ~ Pre consultation & personalized itinerary
- ~ Travel within the Sierra.

4 hours half day - \$750 (available up to 6 weeks out)

8 hours full day - \$995 (available up to 2 months out)

12 hours all day - \$1200 (available up to 2 months out)

Additional days in a row can be booked at 20% off

Additional people - \$200 per person up to 2 additional

Custom Photo Guiding

With Custom Photo Guiding I will plan us a trip anywhere in the world. If you have anywhere you'd love to go, I'll do all the research on everything from the primo photo opportunities to the travel and the best places to stay. These custom opportunities can be anything from a trip traveling in NZ by CamperVan, to the spectacular villages and mountains of Italy, to staying in fishing cabins in Norway exploring the coastal mountains and northern lights. All Custom Photo Trips will be quoted per trip.

Timelapse Mentoring & Guiding

Are you passionate about timelapse and want to learn how to take your work to the next level? Have you never tried before but are curious and would like to learn the basics? Have you been shooting on a tripod and want to learn how to work with more elaborate motion control systems?

With Timelapse Mentoring we'll work together to tailor an experience for you to help you up your timelapse shooting game. This can include help understanding the importance of pre visualization to help envision shots, to "in the field" essential best practices and tips & tricks, to workflow & software mentoring. We'll customize each session based on your experience and main interests.

I also offer Guiding specific to timelapse if you're solid with your skills but would like a Guide who knows the areas you'd like to shoot, or can help with pre visualizing some shots, or who can do all the research necessary to prepare for a shooting trip. Maybe you even just want a buddy to go out shooting with and that's great too.

All Timelapse Mentoring & Guiding includes:

- ~ Pre consultation & personalized itinerary
- ~ Access to learn Kessler Motion Control Gear
- ~ Travel within The Sierra. Worldwide quotes available.

6 hour day - \$950 (available up to 2 months out)

10-12 hour day - \$1500 (available up to 2 months out)

Additional days in a row can be booked at 20% off

Additional people - \$250 per person up to 2 additional

"The mountains are calling and I must go." ~ John Muir

"All we have to decide is what to do with the time that is given to us." ~ J.R.R. Tolkien

"Nothing can dim the light which shines from within." ~ Maya Angelou
